RE: City of Omaha Sewer Maintenance On Call Tree and Stump Removal Services

Dear Property Owner,

This letter is to provide notification of tree clearing scheduled for the upcoming winter months located within park property adjacent to your property. The clearing will include a 20’ wide corridor to re-establish maintenance access to the existing sanitary sewer. This project is necessary as Sewer Maintenance can no longer access the manholes for maintenance purposes with our equipment. The majority of the work will be completed between November 9th and March 31st. An aerial image of the sewer corridor that would need trees cleared is shown below. You will be able to further investigate this corridor using our GIS app at Dogis.org.

If you have any questions, please feel free to contact me at 402-444-3392.

Sincerely,

Evan Wickham P.E.
